4. Communications
 - a. CONA Application for 45 Jason Street
 - b. CONA Application for 154 Westminster Ave.
 - c. Email re: Historic Signage Meeting 9/19. Town has set aside money to do studies for signage at key historical and cultural sites. S. Makowka made report about latest meeting. He reported that the AHDC should consider where District signage may be needed. Commissioners asked to report by next meeting locations current and proposed of signs for Districts.
 - d. CONA Application for 184-186 Pleasant Street
 - e. Emails re: Parmenter School fence and door (17 Irving Street)
 - f. Emails re: MA Preservation Conference in Lexington
 - g. Email and Application for 239 Pleasant Street
 - h. Email re: start of work at 161 Pleasant Street
 - i. C. Barry received email from 109 Westminster Ave. re: reducing garage height by 3 feet
 - j. Email re: groundbreaking ceremony at Church of Christ (formerly Pleasant Street Congregational Church)
 - k. D. Baldwin talked with owners of 51 Academy Street who did some unpermitted work. Shouldn't AHDC send notice to these people and others who do unpermitted work that doesn't meet AHDC guidelines. S. Makowka will send letter.
5. New Business
Hearings (typically last around 20 minutes per application) 8:20pm

1. **Continuation of Formal Hearing for 272 Broadway for renovations including a dormer.** M. Crispin presented revised plans to add dormer for bathroom. S. Myers, architect was present to answer questions. Applicant presented 2 options, stated that he prefers scheme #1 (shed dormer). S. Makowka joined meeting at 8:30pm. Commissioners preferred scheme #2 (gabled dormer) – stating that it had better detail and balance. C. Barry asked about possibility of pulling in the end of the dormer but the Applicant noted that it was really tight with the space needed for the shower. J. Nyberg said it balances dormer on other side and has similar roofline all the way around. The applicant noted that they were proposing red cedar clapboard siding. There was discussion about various options for walls and corner boards including the cladding of the triangular pediment area.. M. Bush stated corner boards as they sit are a touch small, might go 8", not any bigger though. J. Nyberg moved approval of dormer addition described as scheme # 2, subject to the additional conditions that it shall have 8" vs. 6" corner boards, cedar clapboard siding, and double hung wood windows consistent with Commission guidelines. Applicant may also opt for either flat boards or clapboards in triangular peak with details to be approved by monitor prior to installation. Unanimous approval. Monitor appointed B. Cohen

DOCUMENTATION: Application. New drawings.

2. **Continuation of Formal Hearing re: 37 Jason Street (Lees) for solar panels.** J. Constantine from Solarflair presented. Discussion whether there are other locations on the roof where there can be panels. The answer is no it has to be patchy as presented. S. Makowka moved denial as submitted due to the inconsistency with the Commission's guidelines with the criteria for solar panels. Seconded by C. Barry, Roll Call – J. Worden, C. Barry, M. Bush, J. Nyberg, D. Baldwin, B. Cohen, S. Makowka all voted in favor of the denial.

Documentation: see first hearing date

3. **Continuation of Formal Hearing re: 10 Central Street (Hedlund) for solar panels.** J. Constantine presented. Did shade study of alternative roof (on ancillary building) and determined that there was not enough exposure due to close proximity to neighboring house. Proposed to stay on originally proposed roof with black frame panels but will pull them away from roof edge and closer to the chimney. D. Baldwin moved acceptance of revised plans as presented on 9/26, seconded by J. Nyberg. Unanimous approval. Monitor appointed D. Baldwin

DOCUMENTATION: New plans and pictures submitted 9/26.

4. **Formal Hearing re: 175 Pleasant Street (Lucchese) for converting window to a door.** J. Lucchese presented. They want to put in a door to the backyard as part of interior renovations. The plan is to remove existing window and turn it into a door which will allow direct entry in to back yard. The plan is to reuse the window in the breezeway. They are proposing a 30" door that will match the wood to the outside of the house and will match another door on the other side of the kitchen that already exists. Trim will replicate what is around existing windows. The proposed change is in the area on the side of the house with the wood clapboards. There will be a few steps with a wood white painted handrail along the house to match. S. Makowka asked why the plans specify an additional change of a second window in the brick portion of the same side wall. The applicant clarified that that change was not going to happen now and should be removed from the plans. S. Makowka moved approval of the proposed replacement of window as shown in plan with a wood door that is

consistent with the guidelines. Also, the window replacement on brick part of the wall is not part of the approval, the details of the needed steps/risers to be worked out with the monitor, the door trim details to match existing details on the house, and final approval of plan to be approved by monitor prior to installation. J Nyberg seconded. Unanimous approval. C. Barry appointed monitor.

DOCUMENTATION: APPLICATION, EMAILS, PLANS

5. **Informal Hearing re: 239 Pleasant Street (McKinnon) for retaining wall changes.** G. McKinnon presented. Replacing wall exactly where it is. Front face being tiered back about 6 feet. 6 Feet at bottom then will go up remaining 4 feet. Will need staircase up as well. Large, round, New England fieldstone is proposed. Stairs to have granite treads with fieldstone risers. Would look like continuation of wall. Small set, then landing, then set up to top. Black wrought iron railing and fence will be requested at next meeting. No precast cap on the wall, rather will be like the concrete one on the top of the picture presented. S. Makowka asked how stairway will meet wall. Other side will be grassy slope. S. Makowka said he feels wall is an improvement, but is concerned about the stairs. Not enough details on stairs and this will be a prominent feature and he needs more info to approved stairs as a 10 day. M. Bush concerned about fence in context with the wall. M. Bush proposed we issue 10 day certificate to demolish wall. J. Worden moved that the change to remove and replace wall per provided plans has an insubstantial effect on the purposes of the district. Motion was seconded. All voted in favor. M. Bush then moved we issued a 10 day certificate to demolish existing wall. Motion was seconded for discussion. Several commissioners feel that replacement of wall as described would be an appropriate. J. Worden said first tier wall will be exactly where wall is now with second wall being immediately behind. M. Bush withdrew motion. S. Makowka moved approval of demolition and replacement of existing wall with two tiered plans as shown with natural stone construction with no approval for railing or stairs at this time. Final plans to be reviewed by monitor prior to installation. All voted in favor. J. Cummings appointed monitor.
